Letter from MALY to ALABANDA.

"SOV can supply one brigade (two combined regiments) at present. In Europe we could form one regiment of Slovak soldiers at any time. The rest of the soldiers are in the USA, Canada, and Argentina. It would be necessary to call these units to the training centers where formations could be established. Such training should be done as quickly as possible, for instance in Western Germany, to get the soldiers acquainted with the newest weapons. At the same time we would have to consider the removal of their families either to Western Germany or to Spain.

"Our units are prepared to fight for the re-establishment of the Slovak Republic and against communism, but only on European soil. Should war break out, we could quickly form further brigades in Slovakia for the occupation of the Lupkov and Dukla passes. The underground movement in Slovakia includes one battalion. We will furnish further details personally or in writing upon your request.

"I take the liberty to offer a proposal for the military commission of the ABN, which the nationalities comprising the ABN should establish as soon as possible: I) an army abroad.

II) the organization of an underground movement among the soldiers in the respective countries.

I.

- 1) The ABN army should establish its own headquarters.
- 2) Everything should come under General Eisenhower's command.
- 3) It should be subjected to the exile government in political matters.
- 4) Separate training centers for each nation should be established.
- 5) The national army must fight as an allied army in Europe until complete liberation of its people is accomplished.
- 6) After liberation of its own people it will stay in the country as an occupation force to support the government.
- 7) Training, equipment, and other necessities are to be furnished by headquarters.
- 8) This army is to fight only in Europe against Communist, and each unit for the liberation and re-establishment of its own country.
